## TESTER – QUALITY ASSURANCE

### Job profile

Testers test software, applications or services, following test plans. Testers sometimes design these test plans.

### LEVEL OF AUTONOMY

Testers typically work as part of a team within the IT department of large organisations or in Tech sector companies.

### USE OF ICT

Testers work on a personal computer, in an IT department, using common office applications but also may access specialised test software.

### MISSION

Testers ensure that applications function properly before delivering them to internal and external clients.

### TYPICAL WORK ACTIVITIES

- Execute software tests.
- Perform software unit, module and end-to-end testing.
- Write software testing documentation.
- Replicate customer software issues.
- Report test findings.

### BEHAVIOURAL COMPETENCES

- Work independently
- Address problems critically
- Exchange information in written format
- Employ a systematic approach

- Follow a plan

## ATTITUDES

- Focused on detail
- Logical
- Analytical
- Results-oriented
- Problem-solver
- Open-minded
